

Set Cement Balıkesir Plant reached 2 year a lost of time injury...

Our companies one of the main adopted structure is; protecting our employees from any accidents. Based on this structure our company is also successful about performing this structure. The biggest example is Set Çimento Balıkesir Plant with a success of 2 year a lost of time injury.

Set Çimento Balıkesir Plant has passed 810 days without any accidents and also proved the minimising of working accidents to zero. OHSAS 18001:2007 certificate is owned by our plant, as well as our plant is one of the best example in the sector for working safety and conditions. In these period for the success Set Group employees and our subcontractor employees has been trained and also worked together for the achievement. The proof of success is also seen in 2008 in 'Cement Industry Working Condition and Security Symposium' with the award of The Best Performance of Health and Safety for plants which are found in Turkey, this award goes to Set Çimento Balıkesir Plant.

We are much appreciated and proud of our employees that showed their best in this success.

Hopefully, we will have more years without any accidents.
